

# GIUSEPPE ADAMO

## Software Developer

📞 +4917631037200    ✉️ giuseppeadamo908@gmail.com  
🌐 <https://giuseppeadamoilportfolio.netlify.app/>    📍 Berlin

## SUMMARY

Solution-oriented Software Developer with over 2 years of experience specializing in front-end technologies, including React, Material UI, and TypeScript. Skilled in building dynamic, responsive applications with a keen eye for UI.

## EXPERIENCE

### Software Developer

#### Osapiens GmbH

📅 05/2022 - 04/2024    📍 Location

- Enhanced a command-line tool needed for the company's workflow, making it easier to pull and deploy backend resources
- Contributed to the company component library using React, Material-UI, and Storybook to ensure all projects had consistent user interface elements. Took an active role in the creation of new components.
- Contributed to the development and maintenance of the Osapiens webpage (Next.js and Material-UI), adding new features and fixing bugs.
- Contributed to the BrandOs Software solution, concentrating on bug fixes and feature implementations, primarily in the portal's front end using React, TypeScript, and Material-UI, additionally, in back-end and mobile (React Native).
- Actively participated in the development of the KIV Software solution, focusing on implementing new features and resolving existing bugs. Primarily worked on the front end of the portal using React, TypeScript, and Material-UI, with additional involvement in the back-end and mobile (React Native).

## PROJECTS

### Trello\_Clone

📅 04/2024    📍 Berlin, Germany

🌐 <https://trelloclone22.netlify.app/>

Developed a fully functional Trello clone using the MERN (MongoDB, Express.js, React.js, Node.js) stack

- The application allows users to seamlessly create, edit, delete, and drag-and-drop tasks across boards
- This project demonstrates expertise in building dynamic, responsive interfaces and implementing robust backend solutions

### CBD\_Shop

📅 05/2022    📍 Location

🌐 <https://lucent-lamington-9b6fb6.netlify.app/>

Developed a responsive front-end clone of a CBD shop using React and MUI.

- The application allows users to browse products and add items to their shopping list, showcasing proficiency in modern UI/UX design principles and front-end development.

## SKILLS

Express JS

Front-end

Git

Javascript

Material UI

Mongodb

Next.js

Node.js

React Native

React.js

Typescript

## EDUCATION

### Full stack Immersion

#### CareerFoundry

📅 01/2021 - 09/2021    📍 Berlin, Germany

- Completed an intensive 8-month CareerFoundry Full Stack Development Bootcamp, where I mastered front-end and back-end technologies, developed multiple projects, and honed my coding and collaboration skills
